## OBJECTIVE

As an aspiring Frontend Developer, my goal is to set forth on a fulfilling path, utilizing my developing skills. I'm enthusiastic about making valuable contributions to impactful projects through proficient coding and embracing cutting-edge technologies. Driven by a strong passion for learning and a collaborative approach, I eagerly anticipate personal and collective growth.

## SKILLS

- ❖ **Expertise:** HTML | CSS | Bootstrap | Tailwind | JavaScript | ES6 | React | React Router
- ❖ **Comfortable:** Firebase | Rest API | Express JS | Node JS
- ❖ **Familiar:** Redux | MongoDB
- ❖ **Tools:** VS Code | Netlify | Vercel | Figma | GitHub

## PROJECTS

### Rhythm Ranch

[Live Link](#) | [GitHub Links](#): - [Client](#) | [Server](#)

**Introduction of Rhythm Ranch:** Rhythm Ranch is an innovative online platform designed for individuals passionate about learning musical instruments.

- With its user-friendly interface, it offers a seamless experience for both students and instructors. Students can enroll in class sections tailored to their musical interests, while instructors have dedicated spaces to share their expertise.
- To ensure a secure environment, Rhythm Ranch implements Firebase Authentication, allowing users to easily register and log in. The system supports authentication methods such as Google, email, and password, with robust validation mechanisms in place.
- One of the standout features of Rhythm Ranch is its comprehensive payment system. Users can conveniently complete transactions, making the process of accessing premium content or signing up for specialized courses hassle-free.
- With a role-based dashboard, Rhythm Ranch ensures a personalized journey for each user. Depending on their role as students, instructors, and administrators, individuals can navigate through relevant sections, track their progress, and engage with course materials effortlessly. The platform also incorporates advanced CRUD operations, enabling users to efficiently manage their data, and update information.

**Technologies:** React || Node.js || Express.js || MongoDB || Firebase || Tailwind || Axios || JWT || React Query

### Juice Hub

[Live Link](#) | [GitHub Links](#): - [Client](#) | [Server](#)

**Introduction of Juice Hub:** Juice Hub is an innovative online juice order shop, to provide customers with a delightful and seamless shopping experience.

- The stunning homepage allows users to view details of the top-selling products. The homepage is visually appealing and attracts users' attention.
- To ensure a secure environment, Juice Hub implements Firebase Authentication, allowing users to easily register and log in. The system supports authentication methods such as Google, email, and password.
- Juice Hub proudly features a seamless and secure Stripe payment system, ensuring convenient transactions for our valued customers.
- Juice Hub offers a role-based dashboard for personalized user journeys. Customers and administrators can effortlessly navigate relevant sections, track progress, and manage data with advanced CRUD operations, enhancing the juice ordering experience like never before.
- **Technologies:** React || Node.js || Express.js || Firebase || MongoDB || Tailwind || React Query

### Figure Frontier

[Live Link](#) | [GitHub Links](#): - [Client](#) | [Server](#)

**Introduction of Figure Frontier:** Figure Frontier is a dynamic online marketplace dedicated to action figures. With its engaging features and user-friendly interface, Figure Frontier offers a seamless experience for collectors and enthusiasts.

- The website comprises a homepage, a login page, and an "All Toys" page. The login page features secure authentication, ensuring that only authorized users can access the platform. On the "All Toys" page, users can explore a wide range of action figures available for purchase.
- Seamlessly integrates Firebase Authentication for user registration and login. Choose from multiple methods like Google, GitHub, email, and password with proper data integrity and security validation.
- Figure Frontier is a user-friendly platform for toy enthusiasts. Add new toys effortlessly via the "Add Toy" page, manage items with ease on the "My Toy" page, and enjoy a practical sorting system for a delightful browsing experience. Simplifying toy management with seamless efficiency

**Technologies:** React || Node.js || Express.js || MongoDB || Firebase || Tailwind
